COME SCOPE OUT THE ROCK

ONSEITE GUIDE
GUIDE SUR PLACE

SEPTEMBER 19 – 21 SEPTEMBRE
St. John’s Newfoundland & Labrador
Saint-Jean de Terre-neuve T.-N.-L.
Welcome

Dear Delegates and Sponsors

Welcome to St. John’s Newfoundland & Labrador and CSGNA 2019. I would like to take this opportunity to say thank you for your ongoing commitment to Gastroenterology Nursing Education and CSGNA.

The CSGNA Planning Committee along with our Association and Conference Manager, Heather Dow (Events & Management Plus Inc.) have been hard at work for the past year to bring you a superb program that will support your education and certification needs.

We are also grateful for the ongoing support from our sponsors and exhibitors. Our conferences would not be possible without you.

I hope you enjoy your time on “The Rock”. Please take the time to visit all of the vendors, in the exhibit hall, as well as the many educational opportunities.

As I head into my second year as President, I hope to meet as many of you as possible and put names to faces. If you see me about please introduce yourself. Without our members and volunteers, we would not be able to continue as a viable association; CSGNA.

Looking forward to meeting you,

Cathy Arnold Cormier  BScN RN CGN(C)
CSGNA President

EXHIBITING COMPANIES
EXHIBIT HALL – Bowring 1-3-5

AbbVie – booth 2
AbbVie is a global, research-based biopharmaceutical company with approximately 30,000 employees dedicated to developing and delivering a consistent stream of innovative new medicines with distinct and compelling patient benefits.

BD Canada (Pyxis™) – booth 21
BD is one of the largest global medical technology companies in the world and is advancing the world of health by improving medical discovery, diagnostics and the delivery of care. The company supports the heroes on the front lines of health care by developing innovative technology, services and solutions that help advance both clinical therapy for patients and clinical process for health care providers. BD and its 65,000 employees have a passion and commitment to help enhance the safety and efficiency of clinicians’ care delivery process, enable laboratory scientists to accurately detect disease and advance researchers’ capabilities to develop the next generation of diagnostics and therapeutics. BD has a presence in virtually every country and partners with organizations around the world to address some of the most challenging global health issues. By working in close collaboration with customers, BD can help enhance outcomes, lower costs, increase efficiencies, improve safety and expand access to health care. In 2017, BD welcomed C. R. Bard and its products into the BD family. For more information on BD, please visit bd.com.

Boston Scientific – booth 11
Dedicated to transforming lives through innovative medical solutions that improve the health of patients around the world.

Canadian Association of Medical Device Reprocessing (CAMDR) – booth 23
CAMDR is a national voice and leader in Medical Device Reprocessing (MDR) practices. CAMDR collaborates with other national and international organizations to provide its members with professional development and to elevate the quality and standards of reprocessing within Canada, including Infection Prevention and Control.

Cantel Canada Inc. – booth 5
A global company dedicated to delivering innovative infection prevention products and services for patients, caregivers, and other healthcare providers, which improve outcomes and help save lives. Through an expansive portfolio of endoscopy, water purification and filtration, and healthcare disposables, Cantel provides high-quality infection prevention solutions and unsurpassed service, touching millions of patients each year around the world.

Cook Medical – booth 10
Since 1963, Cook Group companies develop healthcare devices. We are at the forefront of medical research and product development in minimally invasive medical device technology for diagnostic and therapeutic procedures.

Fibertech Canada – booth 22
Endoscope product and service company for flexible endoscopes, endoscope documentation and live tracking systems.

Getinge – booth 20
Saving lives is the greatest job in the world. At Getinge, we focus every talent and resource towards helping our customers save as many lives as possible with safe, reliable equipment.

Instrumed Surgical – booth 13
A privately owned Canadian Distributor of Medical Devices focusing on the Endoscopy, Urology & Interventional Radiology segments. GI products include Spot, Taewoong Stents, Stretta (Non- ablative RF treatment for GERD). Stop by the booth for new information on Endoscopic Tattoo options.

Keir Surgical Ltd. – booth 8
Keir Surgical Ltd. is a Canadian owned and operated surgical products company that for over 95 years has been dedicated to providing its customers with quality products and services. Keir Surgical is a leading provider of surgical instruments, sterilization containers and trays, and sterile processing supplies. Keir Surgical also operates an instrument repair facility where they provide an exhaustive list of instrument care, sharpening and repair services.

KNS Canada Inc. – booth 19
A Liver company distributing state of the art point of care diagnostic solutions for liver. Primary products include: FibroScan and OraQuick HCV Screening Kit.

Medtronic Inc. – booth 14
Through innovation and collaboration, Medtronic helps to improve the lives and health of millions of people each year. Learn more about our technology, services and solutions at Medtronic.com

OES Wellness Group Inc. – booth 16
OES Wellness Group Inc. is dedicated to bringing Canadians the best in personal wireless TENS/EMS units for pain relief and core muscle strengthening, with 5 year warranty to enhance the experience.
Olympus Canada Inc. – booth 15
At Olympus, we work with health care professionals, matching innovative technology with their skills, to provide the best possible outcomes for patients. Our GI category delivers innovative therapeutic technologies including ScopeGuide, OER-Pro, Endocuff Vision and EZ Shot 3 Plus. Visit the Olympus booth to view these technologies and more.

Pendopharm – booth 9
Pendopharm is a division of Pharmascience Inc., a Canadian family-owned company. Established in 1983, Pharmascience Inc. is the largest employer of Canadians in the entire worldwide Pharmaceutical industry. It commercializes nearly 300 products, including branded prescription, OTC and BTC products as well as generic products in Canada and with its affiliates and distributors in Europe, Asia, Middle East, Africa and Oceania. Of all the bowel cleanse preparations available on the market, BiPeglyte (2L), Peglyte & Colyte (4L) from Pendopharm are the only ones made right here in Canada. Made for Canadians, by Canadians; we are very proud of that. Pendopharm is thrilled to expand its presence in and reaffirm its commitment to GIs and Surgeons in endoscopy with such innovative solutions as ELEVIEWM, the first-ever and only product officially indicated for submucosal lift of polyps and adenomas in Canada.

PENTAX Medical – booth 17
A division of HOYA Group delivering endo-imaging solutions. Established in 1919 in Japan, PENTAX Medical is a globally diversified company with R&D innovation and manufacturing centers in Japan, Europe and the United States. Through leading-edge optical technologies, PENTAX Medical is providing the most advanced clinically relevant endo-imaging solutions. Together with comprehensive customer service offerings, PENTAX Medical is collaborating with customers worldwide to create long-term partnerships and customer satisfaction.

Pfizer – booth 18
Pfizer’s diversified health care portfolio includes some of the world’s best known and most prescribed medicines and vaccines. Every day, Pfizer Canada employees work to deliver Breakthroughs that change patients’ livesTM. Our commitment is reflected in everything we do, from our disease awareness initiatives to our community partnerships.

PriMed Canada Inc. – booth 7
Established in 1995, PriMed is 100% Canadian owned and operated. As a Health Canada licensed medical device establishment, you can order our products with confidence. We are a dedicated, experienced team helping Canadian hospitals find the right GI devices, cleaning brushes and accessories to efficiently accomplish their work.

STERIS Canada – booth 3
A global leader in infection prevention, contamination control, surgical and critical care technologies, and more. We help our Customers create a healthier and safer world by providing innovative healthcare product and service solutions. As a result of strategic acquisitions and continuous pioneering of new products, STERIS holds one of the broadest portfolios of products in the industry, with a long list of first-to-market products and industry-leading service innovations. Please visit www.steris.com

Summit Imaging – booth 12
Summit Imaging is owned and operated by software and medical equipment professionals with over twenty years of experience in the endoscopy environment alone, and have now expanded our products and services to include pain management and scope tracking. Our expertise in the technical aspects of endoscopy has allowed us to produce an intuitive, simple approach for image and report management needs as well as complete scope tracking.

Surgical Products Specialties – booth 4
We are pleased to present the Healthmark line of GI products. Focus is given to cleaning verification of endoscopy equipment. Visual inspection of channels with our new Flexible Inspection Scope with a 2.4 mm lens. We also have button bags, Bulb and bladders, and other accessories.

Takeda Canada Inc. – booth 6
A patient-focused, innovation-driven global pharmaceutical company that builds on a distinguished 236-year history, aspiring to bring better health and a brighter future for people worldwide.

Vantage Endoscopy – booth 1
Vantage has developed relationships with many of the world’s premier manufacturers that focus on the needs of the physicians, nursing staff and infection control practitioners who make a difference in the diagnosis and treatment of Gastrointestinal disease. Our ambition is to provide leadership and support in selecting and operating the products that best serve medical staff and their patients.
