

The 2023 CSGNA National Conference, themed “Bottoms Up” aims to provide a comprehensive and enriching experience for Gastroenterology nurses and associates. Our annual course offers industry leader experiences, focused educational sessions, insights from colleagues and product service highlights — this year we are in Halifax, NS!

Take advantage of these event features:

Participate in comprehensive education sessions and workshops led by experts including GI endoscope reprocessing, gastroenterological diseases, endoscopic procedure skills.

Join hands-on experiences and demonstrations to strengthen your knowledge-base in the Exhibit Hall.

Engaging plenaries, MDR Day on Saturday and a two day tradeshow.

Build connections that can lead to collaborations and shared insights beyond the conference.

By attending the 2023 CSGNA National Conference, participants will gain valuable knowledge, skills, and professional connections to elevate their practice, contribute to the advancement of gastroenterology, and ultimately enrich patient care in this critical field.

We look forward to your active participation in achieving these learning objectives at our conference.

*conference
overall
objectives*

Explore current and emerging diagnostic and therapeutic techniques in gastroenterology/endoscopy.

Promote networking and exchange of ideas among participants to improve gastroenterology nursing and associate practice and patient care.

Facilitate discussions on the latest developments in gastroenterology nursing and associate practice.

Encourage multidisciplinary collaboration to enhance patient care in the field.

Welcome to Canada's Ocean Playground
